

Amendments to the Specification:

After the title page, please, insert the following new heading and paragraph:

CROSS-REFERENCE TO RELATED APPLICATION

This is a continuation-in-part of copending U. S. application Serial No. 08/917,894, which will be abandoned.

After the Summary of the Invention and before the Detailed Description of the Invention, please, insert the following new heading and paragraph:

BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING

Figure 1 is a perspective view of a three-sized multiple socket tool.

Figure 2 is an exploded view of the three-sized multiple socket tool.

Figure 3 is an exploded view of a smaller two-sized multiple socket tool.

Figure 4 is a side section view of a multiple socket tool having four socket sizes.

On a separate page after the claims, please, insert the following new heading and paragraph:

ABSTRACT OF THE DISCLOSURE

A multiple socket tool combines two, three, or four socket sizes. The sockets are nested inside each other so the tool can be applied to different sizes of bolts or nuts for tightening and loosening such nuts and bolts without changing sockets. Compression springs and pins allow the inner sockets to depress into the larger socket allowing a user automatically to use the proper size. The tool is be driven by a ratchet wrench or an impact gun by connecting to an aperture within the tool. The multi sockets will consist of numerous standard and metric sizes.
